# UNLOCKING INCUBATION & FUNDING OPPORTUNITIES FOR INNOVATORS & STARTUPS

Anvesana TBI successfully organized an outreach session titled "Innovation to Enterprise: Unlocking Incubation & Funding Opportunities for Innovators & Startups" featuring Mr. Mallesh Kumar K S, Manager (Innovation Management), Krishik-ABI, UAS Dharwad.

The session brought together student innovators attending in person and startup founders participating virtually. Participants gained valuable insights into startup incubation, mentorship, grant funding mechanisms, and the support programmes offered through Krishik-ABI, including opportunities under the SOP, AOP, and SAIP initiatives.

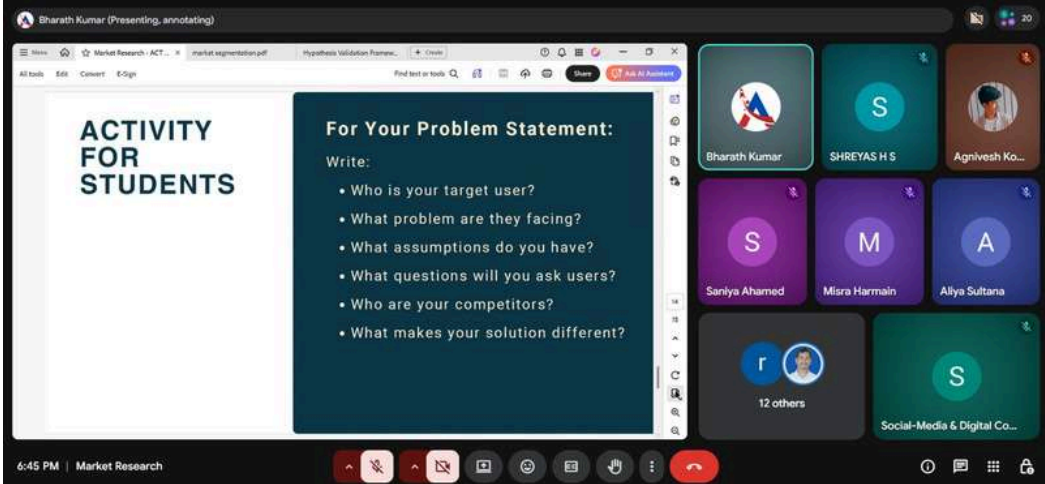

# SESSION ON MARKET RESEARCH FOR ACT COHORT TEAMS

The session on “Market Research” for the ACT Cohort students was conducted recently to help them understand the importance of validating problem statements, identifying target users, and conducting effective market research before building solutions.

As the ACT Cohort participants are working towards building solutions for their identified problem statements, the session provided practical insights and structured activities to help them engage with users, refine their ideas, and develop more impactful, need-driven innovations.

**The students were introduced to primary and secondary market research methods, market segmentation, hypothesis validation, and common mistakes to avoid during product development.**

## ➤➤➤ PROGRESS REVIEW FOR ACT COHORT TEAMS

The screenshot shows a Google Meet interface. The main content is a presentation slide titled "Vision & Growth Roadmap" with the subtitle "Three Stage Scalable Growth Strategy". The slide lists "Stage 1 – Hotel & Cafe Distribution" and "Customized water bottles for:" followed by a list of business types: Hotels, Cafes, Restaurants, and Local food businesses. An "Objective" is listed as "Build recurring daily sales through local business partnerships." To the right of the text are five images of customized water bottles with different labels: "oyo", "boat", "SANGAM", "Chaayos", and "vijay malhi". Two video feeds are visible on the right side of the screen. The top feed shows a man with glasses, and the bottom feed shows a man in a white shirt. The bottom of the screen shows the Google Meet control bar with a timestamp of 4:00 PM and the text "Problem statement Review".

Anvesana Technology Business Incubator regularly conducts review sessions for ACT Cohort teams to support and nurture students throughout their product development journey. During these sessions, the teams present their progress, challenges, and solution approaches while receiving mentoring and feedback to help refine their ideas and build impactful solutions for real-world problems.

## ➤➤➤ ANVESANA CAMPUS AMBASSADOR ENGAGEMENT

The Anvesana team actively engages with its Campus Ambassadors to strengthen the culture of innovation and entrepreneurship across colleges. Through regular interactions and involvement in startup ecosystem activities, the programme empowers students to promote innovation initiatives, support events and workshops, and develop leadership, communication, networking, and event management skills while building a strong student innovation community on their campuses.

## »»» COLLABORATIVE DISCUSSIONS ON INNOVATION AND ENTREPRENEURSHIP

A team from SIMS (Shivamogga Institute of Medical Sciences) visited Anvesana TBI and interacted with the team to understand the initiatives undertaken by Anvesana to strengthen innovation and entrepreneurship in the region. The visiting team appreciated the efforts of Anvesana TBI in building a supportive startup ecosystem and also expressed interest in collaborating with the incubator to promote innovation and entrepreneurial activities at SIMS.

## »»» BUILDING A STARTUP-FOCUSED AI ECOSYSTEM

An interactive session with Vigyanlabs, an innovation-driven technology company focused on AI infrastructure, sovereign AI, and sustainable computing solutions, was conducted to understand the infrastructural requirements of startups for establishing an AI Lab capable of supporting product development, experimentation, model training, and AI-based solution development. The startups shared their technology needs, challenges, and expectations regarding AI infrastructure, enabling valuable discussions around creating a startup-focused AI ecosystem that can help innovators build, test, and refine their AI-driven products more effectively.

## SAFE CLOAK EXPANDS ACROSS INDIA

SafeCloak continues to expand its footprint across India. Over the last 90 days, the startup has added 18 new locations across multiple states, strengthening its position as one of India's leading smart luggage storage networks. Notable milestones include its largest installations at Mumbai's Dadar and Lokmanya Tilak Terminus (LTT) Railway Stations, serving hundreds of travelers daily through a network of secure smart lockers. With growing presence across transportation hubs, tourist destinations, and retail locations, SafeCloak is enabling convenient and secure luggage storage solutions while steadily scaling its operations nationwide.

## A JOURNEY OF GROWTH AND RECOGNITION: SGB PVT LTD

From a turnover of ₹65 lakh to achieving ₹2.10 crore in annual revenue, this startup's journey reflects the power of innovation, perseverance, mentorship, and the strong support ecosystem of Anvesana TBI. Recognized among the Elevate 100 Startups (2024-25) and awarded Best Startup of the Year 2025, the company stands as a testament to sustainable growth and entrepreneurial excellence.

## ➤➤➤ D-SCRIBE REACHES 38 HOSPITALS ACROSS INDIA

Unriddle Technologies Pvt. Ltd. continues to make significant strides in healthcare innovation through its flagship product, D-Scribe, an AI-powered clinical documentation solution. Designed to streamline medical record keeping and reduce administrative burden on healthcare professionals, D-Scribe has now been successfully deployed across 38 hospitals. This milestone reflects the startup's growing impact in transforming healthcare workflows through technology. With a focus on improving efficiency, accuracy, and patient care, Unriddle Technologies is steadily expanding its footprint and contributing to the digital transformation of healthcare institutions across the country.
